DETAILED ACTION

1. Claims 1-12 are allowed over the prior art of record.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is that the prior art neither teaches nor fairly suggest a method of filling a metal in fine trenches as presented in independent claim 1. Major emphasis is being placed upon the provision of *"polishing the surface and removing a portion of the plated metal film by pressing the surface of the substrate to a polishing surface, wherein the pressures pressing the substrate to the polishing surface at a central portion and a peripheral portion of the substrate are adjusted independently"*, in combination with other limitations of the said claim and its dependent ones.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

3. Woo et al (6,555,461) discloses a method for forming a metal interconnect structure.
4. Cooney et al (6,534,394) discloses creating robust contacts and interconnects on a wafer through a non-ionized deposition process.
